- Accommodation in the buses is according to the order of registration of the tourists
- Check-in at the hotels is after 2:00 p.m., and check-out is by 12:00 p.m. at the latest.
- When accommodating three adults in a double room, the third bed is of the "extra" type, usually a sofa bed, therefore the third adult pays a lower price as per offer
- When accommodating two adults with one or two children, the third and fourth beds are almost always sofa beds. Children enjoy a discount only when staying with two full-paying adults!
- Bus number, driver's phone number and exact departure time are announced two days before departure, and tourists are responsible for informing themselves
- Medical insurance has a limit of up to 5000 euros per person, and every tourist has the right to insure himself for a higher amount against an additional payment
- The tour operator is not responsible for lost, stolen or forgotten luggage during the trip or stay at the relevant hotel;
- **PROMO** and **ECONOMY** rooms in hotels are rooms advertised at a lower price due to some disadvantage compared to standard rooms - they are often narrower, with an extreme location, on the ground floor, without a balcony or terrace, with a smaller bathroom, older furniture or some other problem
- Prices of additional field trips in Turkey are determined by the local tour operator. Collecting and organizing the excursions on site depends solely on the local tour operator!
- If you need to use the medical insurance, you must first contact the company serving the persons insured in ZAD "Lev Ins" on the telephone numbers indicated on the insurance policy. If you skip this step, your insurance will not be applied, and the insurer will not reimburse you for the full cost of medical services.
